

Proposal Form

We are always interested in considering new book proposals, and the form that follows will enable us to make a preliminary assessment of your project. Please return the completed form with a little background information material, such as an abstract or brief synopsis and table of contents; we will then let you know if we would like to take matters further. **Please do not submit complete manuscripts.**

This is an interactive PDF form; you may type in the boxes before printing it out or you may print it and then fill it in by hand. Please attach extra paper if the room provided is not sufficient.

Please submit proposals to:
